CTL-OP 101

CTL Decisions of Current Interest

The following are the CTL decisions of current interest taken during the various CTL Meetings. Please note that each decision is referenced with the same number as reported in the minutes.

Decision 5:44/07:

b)The humidity test conditions specified in the standards will be maintained at the humidity chamber's control point(s), ie. where the humidity sensor(s) is(are) located. The humidity conditions at other points in the chamber may vary as per CTL-DSH 251A.

(This decision will be temporarily put in CTL OP 101 while a PDSH is being developed by WG4).
